2 Introduction

Subject: Annual accounts of the financial year 2013

The European Institute for Gender Equality (EIGE) is a regulatory agency of the European Union, which has been given specific objectives related to contribution and strengthening of the promotion of gender equality.

The Institute was established to contribute to and strengthen the promotion of gender equality, including gender mainstreaming in all EU policies and the resulting national policies, and the fight against discrimination based on sex, and to raise EU citizens' awareness of gender equality by providing technical assistance to the EU institutions and the authorities of the Member States, which cannot be sufficiently achieved by the Member States and can therefore, by reason of the scale of the action, be better achieved at EU level, the EU may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary to achieve those objectives.

The Institute shall collect, analyse and disseminate relevant objective, comparable and reliable information as regards gender equality, including results from research and best practice. The Institute shall set up and coordinate a European Network on Gender Equality, involving the centres, bodies, organisations and experts dealing with gender equality and gender mainstreaming.

The Institute shall make information on gender mainstreaming available to public and private organisations; and provide information to the EU Institutions on gender equality and gender mainstreaming in the accession and candidate countries.

The Institute shall publish an annual report on its activities.

The objectives of financial statements are to provide information about the financial position, performance and cash flows of EIGE.

The financial statements have been prepared according to the accounting rules adopted by the European Commission's Accounting Officer and the 'closure instructions' received from the same Commission's Accounting Officer where the economic outturn, balance and cash flow are concerned.

The general accounts are accrual accounts which means that the effects of transactions and other events are recognised when those transactions or events occur (and not only when cash or its equivalent is received or paid). They are based on the IPSAS (International Public Sector Accounting Standards). The general accounts allow for the preparation of the financial statements as they show all revenues and expenses for the financial year and are designed to establish the financial position in the form of a balance sheet at 31st of December.

The budget execution is prepared on the basis of a modified cash accounting. In cash accounting system, payments made and revenue received are recorded. Modified cash accounts means that payment appropriations carried over are also recorded. They are used to produce the budgetary outturn account and reports on budget implementation.

These provisions lead to discrepancies between the general accounts and the budget accounts.

The accounting policies have been applied consistently throughout the period.

The Director shall send the final accounts, together with the opinion of the Management Board, to the Commission's Accounting Officer, the Court of Auditors, the European Parliament and the Council, by 1st of July of the following year at the latest.

2.1 Legal Framework

This report has been prepared in accordance with Article 76 of the Financial Regulation of the Agency of 04 September 2009, adopted by the Management Board which issued the decision referenced EIGE/2009/MB/11.

2.2 Accounting principles

The accounting principles applied in drawing up the report are the ones reflected in the accounting rules adopted by Commission's accounting officer.

Currency

The present financial statements are presented in Euros.

Transactions in foreign currencies

Economic transactions in other currencies than in Euros have been converted into Euros on the basis of European Commission's official rate "Infor-Euro".

Due to the Agency's location outside of Euro-zone, a substantial number of transactions during reporting period occurred in Lithuanian Litas. In any case, the currency exchange rate between Euro and Litas is fixed at 3.4528 Litas for 1 Euro.

4 Annex to Financial Statements

4.1 Notes to the Balance Sheet

4.1.1 Non-current assets

Assets are resources controlled by EIGE as a result of past events and from which future economic benefits or service potential are expected to flow to the entity.

Fixed assets are assets with an acquisition price value above 420.00 Euros and are expected to be used during more than one year. Assets, which do not fall under the above described criteria, have been charged against expenses and are reflected in the economic outturn account. Repairs and maintenance are recognised as running expenses during the financial period in which they are incurred.

EIGE assets are tagged with label stickers. The physical inventory check of Agency's assets is to be performed at least once in three years.

The assets were valued in the financial statements at their purchase price less depreciation, in order to give a fair view of EIGE assets.

Depreciation is the systematic allocation of the economic value of an asset over its economic useful life. The depreciation method chosen is the straight-line method. EIGE's fixed assets are depreciated on a monthly basis. The depreciation/amortization rates are the coefficients used at the European Commission. The applied depreciation/amortization annual percentage rates used are:

- IT Software: 25%
- IT hardware: 25%
- Plant, machinery: 12,5% and 25%
- Furniture: 10%, 12,5%, 25%
- Other fixtures: 25%

4.1.1.1 Intangible assets

Intangible assets are identifiable non-monetary assets without physical substance.

- EIGE's intangible assets consist of computer software and licenses.
- There are no internally developed intangible assets.
- The threshold above which the internally incurred expenses, having as scope the creation and/or development of intangible assets, should be capitalized is of 150.000 EUR.

4.1.1.3 Long term assets

Under this position is recognised the pre-finance for fit-out works covered by the operating lease contract for the actual premises in Gedimino prospektas 16, Vilnius.

The open amount of 240k EUR will be set off against rent expenses over a period of 8 years, from 2015 to 2022.

4.1.2 Current assets

4.1.2.1 Short-term pre-financing

Pre-financing is a payment intended to provide the beneficiary with a float, i.e. cash advance. At the end of the year the amount of the pre-financing open is 30k EUR. The amount will be set off against rent expenses in 2014 and is part of the same operating lease contract for the actual premises in Gedimino prospektas 16, Vilnius.

4.1.2.2 Short-term receivables

Receivables are carried at original recognised amount less write-down for impairment. A write-down for impairment of receivables is established when there is objective evidence that EIGE will not be able to collect all amounts due according to the original terms of receivables.

EIGE receivables comprise mainly of VAT to be recovered from Lithuanian Taxation Authorities. In accordance with taxation regulations, EIGE is entitled to VAT exempt purchases with a value of greater than 800.00 LTL. At the end of the year the outstanding VAT amount was of 214.096,13 Euros, relating to invoices paid during the year.

The amount of 26.444,90 EUR represents contribution to the pension scheme fund paid in excess by the end of the year as the pension contribution rate was decreased retroactively. The amount is to be recovered by setting it off against future contributions to pension scheme fund.

Finally, the amount of 1.108,04 EUR is the net amount to be recovered from staff.

Accrued charges represent estimate of liabilities that are not supported by an invoice or a cost claim or an expense summary at the end of the reporting period. Accrued and deferred charges have been estimated on the basis of accounting information provided by authorising officers.

4.2 Notes to the economic outturn account

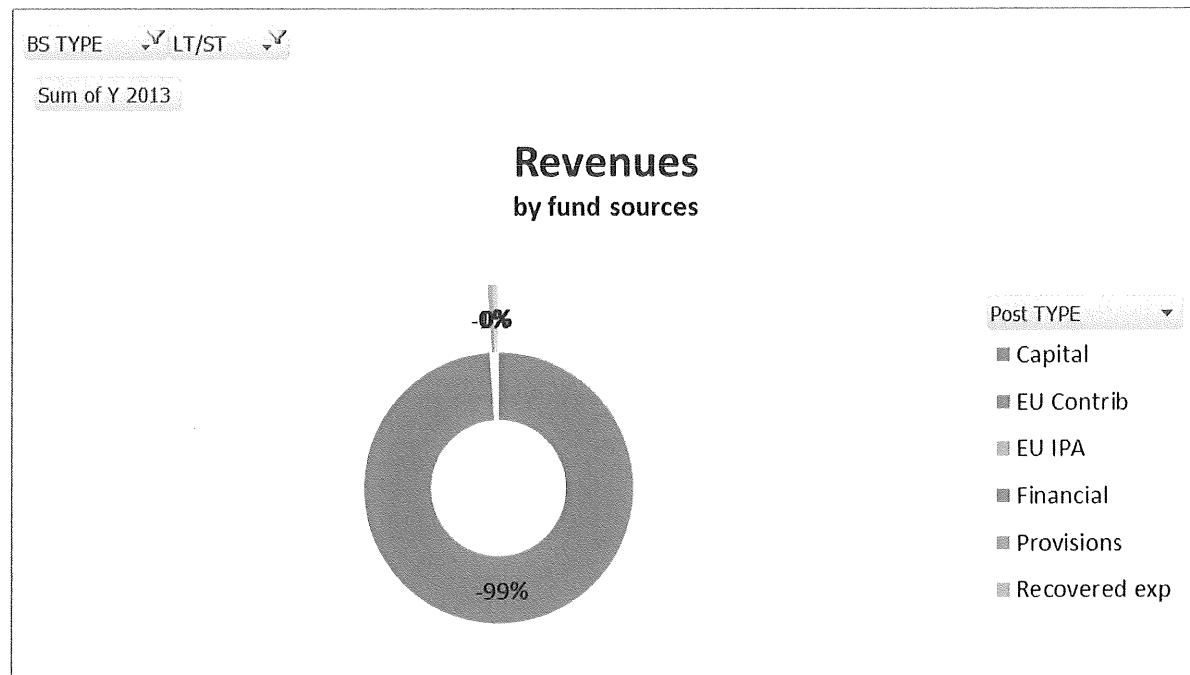

4.2.1 Operating revenue

The revenues are presented in the economic outturn by fund sources.

The overwhelming part of it is funded by EU balancing contribution and this part was recognised in the financial statements following the 'closure instructions' received from Commission's accounting officer.

The same applies for the revenues funded by recovered expenses.

The part of the revenues funded by the IPA programme was recognised in the present financial statements based on the expense report presented to and accepted by the financer, DG ELARG.

4.2.2 Operating expenses

In accordance with the principle of accrual-based accounting, the financial statements shall show the charges for the financial year, i.e. when they were recognised, regardless of the date of payment.

Administrative expenses relate to the Agency's administrative activities (budget titles 1: Staff and 2: Other administrative expenditure).

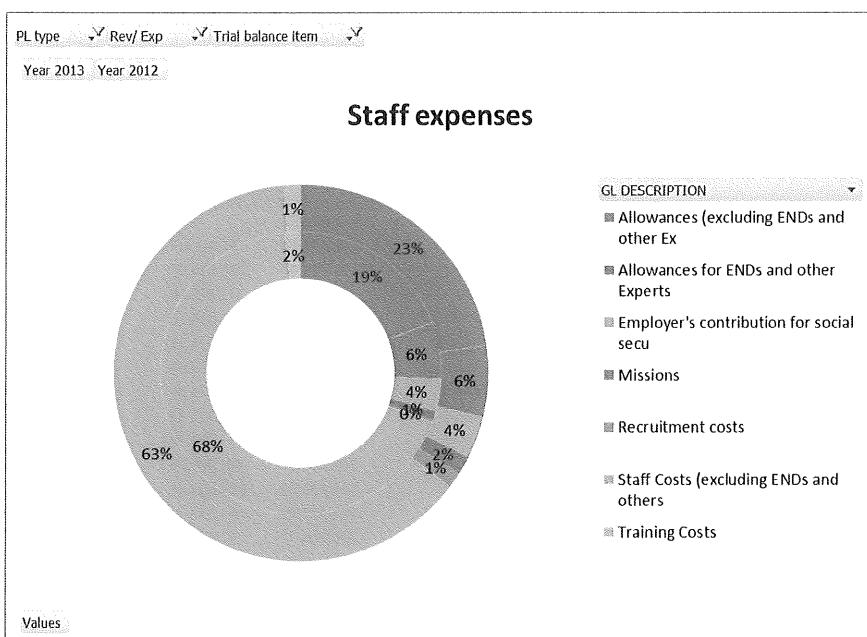

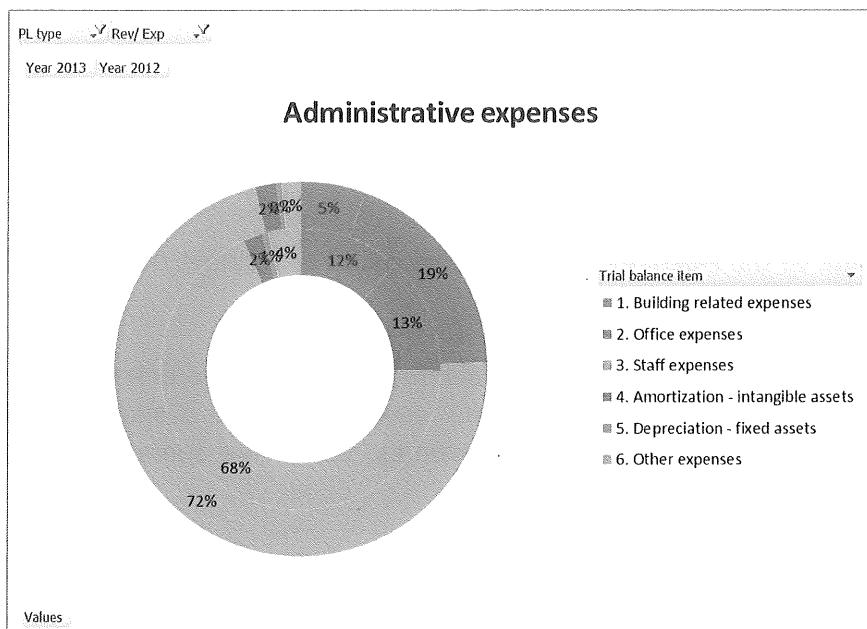

Staff expenses include EIGE staff related costs (basic salaries, allowances, contract agents, family allowances, insurance, social contributions etc.) covered by the Conditions of Employment of Other Servants of the European Communities. Under the same post it is recognised also the costs with the SNEs and trainees.

It is important to be noticed that at least 60% of the total cost under 'staff' is realised by employees of EIGE working for the operational unit.

Fixed assets related expenses reflect the depreciation charged for the year.

Other administrative expenditure consists of other expenses incurred from EIGE daily activities, such as rent of premises, meetings expenses, office supplies etc.

- There was one transfer between titles, EIG. 986, above the ceiling of 10% where the Management Board's approval has been obtained a posteriori. It happened as there was no monitoring of the percentages of the transfers related to their corresponding appropriations; this was also facilitated by the fact that there were no previous inter-title transfers.
