 - N. of cases referred to court
 - Types of offense(s)
-

Defendant pleas/verdicts

- ✗ No information collected on Defendant pleas/verdicts

Average time case through criminal justice system

- No
-

Outcomes

- This administrative data source does not collect information on Outcomes
-
-

Characteristics

Storage System

- In paper form
 - Electronically (single files)
 - Electronically (database)
-

Frequency of updating

- Other

* Daily (Public Security Police). Monthly (Nacional Republican Guard).

Quality assurance process

When a domestic violence crime is reported to the police (Public Security Police - PSP or National Republican Guard – GNR) standard notifications on complaints or reports of domestic violence are filled. This standard notification is available through their computer software platform. After that the responsible for each police station validates this report as a domestic violence incident and sends the information to the Directorate-General Internal Affairs computer software tool. This Organism produces the Report with all data related to domestic violence incident.

Comparability

- No information available

Timeliness

Additional information: The information collected by police is sent to the central data base in the Directorate-General Internal Affairs. This happens daily in PSP and monthly in GNR. It is compiled in an annual report.

Current developments

A risk assessment instrument is being developed for the police. This instrument will collect more data information about domestic violence, at the time incidents are being reported to the police.

Relation with third parties

Reported to third parties

Yes

Name of organisation:

Internal Affairs Ministry and Directorate-General for Political Justice

Used by third parties:
