- 

## Purpose of data collection

Inform/evaluate policy

### Other purpose:

Mandatory according to Cabinet of Ministers rules. To establish united patients database; to ensure state's statistical programme implementation; to ensure state compliance with international liabilities in data collection.

---

## Data available on

### Victim

### Background information

Age

Sex

Nationality

ID

Name

Ethnicity

Marital status

Dependants

---

### Relationship with perpetrator

Yes

**Type of relationship:** Relationship between victim and offender; reasons for attack; description of injury (situations, reasons)

## Repeatedly suffering from GBV

No

---

\* There is Injury Incident Record template provided as a part of Cabinet of Ministers regulation <http://www.likumi.lv/doc.php?id=181288>

### Perpetrator

## Background information

Age

Sex

Nationality

ID

Name

Ethnicity

Marital status

Dependants

---

## Relationship with victim

Yes

**Additional information:** This means that it is recorded whether there exists a previous relationship between victim and offender (e.g. family, intimate partner) or not (stranger).

## Re-offending

No

### Witness

## Background information

Age

Sex

Nationality

ID

Name

Ethnicity

Marital status

Dependants

---

## Relationship with victim/perpetrator

Yes

## Incident description by witness

Yes

## Children witnessing IPV incident

No

## Incident

### Code system used

Health

\* SSK 10 Classification

---

### Description of incident

Date/time

Harm/injuries

Location

Type of violence

**Other:** Date and time of injury, geographic location, type of injury, intent of offender, description of incident.

---

### Protection order

No information available

### Civil justice data

No information available

---

### Incident respond resources

✗ No information collected on Incident respond resources

### Prosecution process

✗ This administrative data source does not collect information on Prosecution process

### Outcomes

### Perpetrator

### N. of cases resulting in arrest

No

---

### Charged with more than one offense

No

### Victim

### Death as result of incident

Yes

---

## Characteristics

### Storage System

- ✓ In paper form
  - ✗ Electronically (single files)
  - ✗ Electronically (database)
- 

### Frequency of updating

Ongoing

---

## Quality assurance process

Data collection and coding done according EU Injury Database IDB guidelines and data quality requirements. Personally identifiable information is encrypted

## Comparability

✘ No information available

## Timeliness

✘ No information available

## Current developments

✘ No information available

## Relation with third parties

### Reported to third parties

Yes

### Name of organisation:

Ministry of Welfare

### Used by third parties:

Yes (all of it)

## Reporter

✘ Victim

✘ Witness

✘ Offender

**Other:** General Practitioners, hospitals

\* There is a lot of incidents when relationship between victim and offender is not reflected in the records (e.g. 577 cases in year 2011, 781 cases in 2010). It might be related to hidden violence incidents when victim does not want to release facts and number of domestic violence are higher (<http://polsis.mk.gov.lv/LoadAtt/file39853.doc>) but there is no information how the centre is planning to address this observation.
