

# National Patient Registry

---

## Types of GBV

- ✗ Intimate Partner Violence
- ✓ Rape
- ✓ Sexual Assault (excl. rape)
- ✗ Sexual Harassment
- ✗ Stalking

\* No specific registration of partner violence, no information about the relationship between the patient/victim and the offender, specific registration code for cases of sexual assault and rape

---

## Purpose of data collection

Monitoring

Accountability

Contribute to other organisation database

### Other purpose:

Statistics. To get information about national health development and hospital sector.

---

## Data available on

### Victim

#### Background information

Age

Sex

Nationality

ID

Name

Ethnicity

Marital status

Dependants

### Other:

Based on ID additional information from the CPR-registry: address, material status, nationality and employment

---

## Relationship with perpetrator

No

## Repeatedly suffering from GBV

No

### Perpetrator

## Background information

✘ No information collected on Background information

---

## Relationship with victim

No

**Additional information:** This means that this kind of information is not recorded by this data source.

## Re-offending

No

### Witness

## Background information

✘ No information collected on Background information

---

## Relationship with victim/perpetrator

No

## Incident description by witness

No

## Children witnessing IPV incident

No information available

### Incident

## Code system used

Health

\* EUVG (physical violence) EUVG1 (sexual assault), EUVG10 (Rape),

---

## Description of incident

Date/time

Harm/injuries

Location

Type of violence

**Other:** Hospital (department), diagnosis, examinations, treatments and operations.

---

## Protection order

No

## Civil justice data

No information available

---

## Incident respond resources

- ✗ No information collected on Incident respond resources

### Prosecution process

- ✗ This administrative data source does not collect information on Prosecution process

### Outcomes

#### Perpetrator

##### N. of cases resulting in arrest

No

---

#### List of offenses

No

#### Victim

##### Death as result of incident

Yes

---

## Characteristics

### Storage System

- ✗ In paper form
- ✗ Electronically (single files)
- ✓ Electronically (database)

---

### Frequency of updating

Ongoing

---

### Quality assurance process

If a researcher needs access to personally identifiable data from the National Patient Registry a permission from both the National Data Protection Agency and National Health Research services is required. In this respect, only the data that is needed to respond to the actual research hypothesis is provided.

---

### Comparability

- ✓ Geographical
- ✗ Over time
- ✗ None

---

### Timeliness

Immediately

**Additional information:** Normally cases are registered when the patient leaves the hospital.

---

### Current developments

The National Patient Registry will in 2016 have to renew the data supplier contract. This will be an opportunity to modernize and maybe adding new data. The Danish regions are developing EPJ (Electronically Patient Journals). There might be a basis for coordination.

---

## Relation with third parties

### Reported to third parties

Yes

### Name of organisation:

National Statistics Office

### Used by third parties:

Yes (all of it)

---

## Reporter

- ✓ Victim
- ✗ Witness
- ✗ Offender

---

\* To a high degree these data are used by researcher

---
