-

Data available on

Victim

Perpetrator

- ✗ This statistical product does not collect information on Perpetrator
-

Incident

Incident

Other content: Personal information on victim/perpetrator (ID, gender, age, relationship with the victims, re-offender, re-victimisation), number of interventions by the police, type of the misdemeanour, number of victims in cases of domestic violence, the number of appeals against the decision of the Magistrate Judge, number of the proposed and imposed protection orders, number of cases in which the perpetrator was in possession of a weapon, number of accused persons, number and type of protection orders, number and type of the imposed sentences, number and type of the correctional measures (for minors), number of imposed fines, family history of the victim/perpetrator, employment status, acts implemented by the Centres for Social Welfare, number of appointed special guardian for the child in court proceedings relating to domestic violence, the number of accommodation in the shelter, number of victims in the need for hospitalization, medical expenses caused by the treatment provided to the victim, the number of cases in which the victim or the perpetrator were referred to treatment in a psychiatric facility and other information specifically related to the obligations of the competent institutions.

Criminal statistics on sexual violence

Criminal statistical data included

- Yes

Additional information: Information added if there is a sexual violence case in the family, but no further information about the incident.

Characteristics

Reference period

- No information available

Frequency of updating

Other

Additional information: * Monthly and quarterly.

Validation

✘ No information available

Compilation

✘ No information available

Quality assurance process

✘ No information available

Accuracy

Problems. The main problem/limitation is the fact that the data base uses a total number of the cases (e.g. total number of reported cases on domestic violence). It remains questionable whether the data is completely accurate because involuntary errors can occur.

Reliability

✘ No information available

Timeliness

✘ No information available

Comparability

✘ No information available

Current developments

At the moment there are no significant changes in plan.
