

Innovative interdisciplinary services for adult victims of domestic violence in Sofia, Plovdiv and Dimitrovgrad

Provision of integrated services- psychological, legal counseling, counseling for job placement, treatment of perpetrators. Provision of services for about 400 victims of DV in the three locations. Training of professionals a under specialized programmes. Giving publicity and visibility in the local community.

Aims and objectives

To achieve effective protection of victims of DV in the three locations through interdisciplinary services, promoting intersectoral cooperation, campaigning for the local authorities for taking responsibility for these innovative services

Results and impact

More effective protection of victims of DV against violence and social exclusion. Creation of a basis for the provision of integrated counseling services for victim protection in the locations of the project with high potential for replication.
