

Methods of work with foreigners living in the CR and being at risk of domestic violence / Metodika pro práci s cizinci žijícími v České republice, kteří jsou ohroženi domácím násilím

The manual presents options how to assist to persons at risk of DV, with special regards to the situation of foreigners and to issues of cultural differences in intimate relationship.

Aims and objectives

The methodology should increase the awareness of professionals who are confronted with the domestic violence in foreigners/ families, and to contribute to the interconnection of the various institutions involved in solving problems related to domestic violence.

Creator/owner/responsible institution
