

# Coordination of the prevention of intimate partner and domestic violence and concentration of expertise (Publications of the Ministry of Social Affairs and Health 2006:82)

In its report the Working Group deals with, on the one hand, intimate partner and domestic violence and, on the other hand, violence at work. It has examined the prevalence and costs of violence, and international guidelines and central government actions to reduce violence. The Working Group has consulted agencies and institutions, and also major NGOs working in this field.

The Working Group proposes establishment of a permanent national unit responsible for the prevention of intimate partner and domestic violence.
