

Guideline for Victims of violence

The information brochure, available online, gives several practical information to victims of violence, in particular to victims of domestic violence. It describes different forms of violence, the violence circle and the consequences. It includes also psychological aspects, such as how to handle the own emotions, such as guilt, and addresses also sensitive issues like rape, knowing the perpetrator, psychological elaboration of the violent attack. A focus is given to supporting activities, in order to encourage the victim to seek help. It includes practical information and several addresses, where the victim can get support, such as Info-hotlines, as well as on their rights (legal aspects) in an easy to understandable language.

Aims and objectives

The aim is to inform victims on the different aspects related to the violent act and encourage them to seek for help.

Results and impact

The information brochure is accessible online and easy accessible for victims of violence. No evaluation is available.
