

Models of good practice for the elaboration of application according the penal code for women victims of violence

This practical handbook includes overall information on the application procedures as well as practical examples from different German cities on application procedures as well as good practices from shelters and governmental agencies, which help to accelerate the process of applications for financial support. It considers for instance support for living expenses, for clothes and the so called "Kindergeld" (child care support). Also, it gives information on labour market integration measures, and of cooperations models.

Aims and objectives

This handbook provides practical information and good practices for facilitating organisations and shelters working with women victims of violence to establish good practices for facilitating the application of financial support and integration support from governmental agencies.
