

# Recommendations for the prevention of interpersonal and domestic violence - How to guide and lead local and regional activities in social and health care services

These recommendations give pointers for managing and directing the local and regional efforts to prevent interpersonal and domestic violence. The purpose of the recommendations is to support and promote local and regional work to prevent interpersonal and domestic violence, alleviate related problems and reduce costs. They are based on the information and experiences generated in the course of the national development project to prevent violence and on international recommendations
