

101 pitanje za ženu iz ruralnih područja

Aims and objectives

The aim of this research is to learn about status, attitudes and needs of rural women in the Republic of Croatia. Research performed on the representative sample of rural women, conducted by the Ministry of Agriculture, Fisheries and Rural Development.

Results and impact

Understanding of the status of rural women in Croatia, and hopefully, starting point for the development of the new national policy/strategy on rural development, which should be drafted in 2013.

Contents/activities/services

Quantitative survey, qualitative research, focus groups and consultations, workshops, seminars, conferences.
