Since 1998 the national gender equality plan – Priorities and Policies of the Government in the Promotion of Equality for Women and Men – has been the basic strategic document in the field of equal opportunities for women and men. It is compiled annually and its fulfilment is evaluated. The document is approved by the government of the Czech Republic; it consists of a report on equal opportunities in the preceding year and a list of tasks for individual ministries for the given calendar year (or a longer period) (the Updated Priorities).
