

Sukupuolinäkökulman valtavirtaistaminen kunnissa ja valtionhallinnossa

Valtavirtaistaminen käytäntöön -hankkeen alkukartoitus

The mapping is a part of the gender mainstreaming into practice 2-year (1.3.2010 – 28.2.2012) initiative that aims to develop new methods and practices and tools to mainstream a gender perspective into regional authorities/agencies' work/activities/services. The initiative includes a mapping of what has happened to date with initiatives, materials, research and evaluations and experiences on gender mainstreaming (national/central , regional and municipal level); consulting with pilot organisations (regional administrative agencies in Northern, South-east and middle Finland and cities of Vantaa, Laitila and Oulu) ; networking and development of practices, tools and methods and training materials. The findings of the mapping, good practices/methods were tested with pilot organisations, in addition, information on challenges and gaps is being gathered. The mapping identifies the most important gender mainstreaming initiatives and provides the basis for the development of methods and tools.
