

Etude d'impact. Projet de Loi relatif à l'Enseignement supérieur et à la recherche

This document includes the gender impact of the future act on Research and Higher Education (to be passed in June, 2013). To date, it represents the best practice in terms of GIA in France, following the instructions held in the governmental notice issued in August, 2012. This was notably made possible by the compilation of a detailed report on women in science and the academia, submitted upon request of the Parliamentary sub-committee for women's rights.
