

Working Aid: Gender Impact Assessment “Gender Mainstreaming in the Preparation of Legislation”, In French: Aide au travail Évaluation prévisionnelle de l’impact de la loi selon le sexe« Intégration de la dimension de sexe lors de l’élaboration de dispositions légales »

This Working Aid serves to facilitate identification of gender-specific impacts when drafting legislation in order to promote the actual implementation of equal rights for women and men and eliminate disadvantages that now exist. It can be used for other cabinet submissions (e.g. reports) mutatis mutandis. Furthermore, the Aid also provides support in presenting the impact of prospective legislation on men and women in the explanatory memorandum in a differentiated and transparent manner.
