

Έκθεση Αποτελεσμάτων της Έρευνας «Συνεργασία στην Οικογένεια και στην Εργασία»

The survey took place within the context of the project "Collaboration between Family and Work", 5th Community Action Programme for Gender Equality, with coordinating agency the Training Center of GSEVEE (The Hellenic Confederation of Professionals, Craftsmen and Merchants). The survey took place in 2003 in 14 towns and cities amongst members, men and women, of GSEVEE. The results have shown that though traditional stereotypes regarding the role of women as workers have changed, there has been little change with regard to family care and family responsibilities.
