

Gender mainstreaming a Környezet és Energia Operatív Program végrehajtásában : Munkafüzet

The booklet was primarily prepared for public administration officials working in the National Development Agency and its Managing Authorities. It contains an introduction of the concepts of gender, gender equality and mainstreaming. Then it discusses the topics of externalities and the inequality in the access to resources. It focuses on the whole programming process of the respective OP and ends with a chapter on gender conscious communication.
