

# Review of the Implementation of the Beijing Platform for Action: Women and the Economy reconciliation of work and family as a Condition of Equal Participation in the Labour Market Main Findings

The publication summarises the main findings of the first EIGE Report and specifically focuses on the topic of the reconciliation of work and family as a condition of equal participation in the labour market (one of the objectives expressed in the BPfA, area F: Women and the Economy). It brings together the key findings which include the main legislative developments at EU level concerning maternity, paternity and parental leave amongst other information.
