

Ministry of Justice Equality Objectives 2012–2016

The Ministry of Justice equality objectives set out how the body plans to comply with the Public Sector Equality Duty between 2012-2016. These seek to reaffirm the Ministry's commitment to ensuring that equality remains at the heart of its work, including in terms of how it designs and delivers its policies and services to the public, how it procures and commissions from others and how it acts as an employer.
