

Strategic Equality Plan and Objectives 2012-2016 Wales

The Welsh Government's Equality Objectives have been developed to ensure that its governance has the most effective impact on making Welsh society fairer and more inclusive. The Objectives will help ensure that public services and employment are fair, accessible, responsive to people's needs, and that communities are inclusive. They specify how people should not be put at a disadvantage on the basis of gender, race, faith or belief, sexual orientation, age, pregnancy and maternity, marriage or civil partnership status, disability, sexual orientation/gender reassignment. The Plan marks the beginning, as the Welsh government starts delivering on its Equality Objectives.
