

Womenization of media grows with freedom

The text analyses the available data from the Journalist's Union relating to the presence of women in the newsrooms of the media know two distinct realities: the long period of 40 years from 1934, the year that the National Union of Journalists (SNJ) was founded, to 1974, and period from the beginning of democratic freedoms (1974) to 2010. The analysis includes data from the Comissão da Carteira who accredits the appropriate professional title.
