

Guia para o Mainstreaming de Género na Actividade Profissional e na Vida Familiar

The guide addresses the importance of gender mainstreaming in public administration. It provides the main tools to facilitate the incorporation of a gender mainstreaming approach in the design of policies and practices by public institutions. An overview of the possible type of interventions on the field of gender equality and work-family life balance is also offered, as well as a selection of good practices learnt from other European countries.

Format: Printed, 80 pages
