

Accesul romilor pe piața muncii : aspirații, factori și strategii de reușită

This paper describes and analyzes the Roma aspirations, needs and expectations in terms of employment for individuals and communities, the most effective methods to stimulate and attract them to labor market. Chapter 1: Socio-economic data about the Roma population and the labour market resulting from the 2002 census. Chapter 2: Describes and analyzes the factors that block the access of the Roma population to the labour market. Chapter 3: Comparative analysis of regional employment plans, focusing on how the Roma population is a priority of intervention in the labour market. Chapter 4: A series of community approaches that lead to increasing access of Roma population to the labour market.
