

EHRC Strategic Plan

This strategic plan sets out a clear and robust strategic sense of direction so the EHRC's staff, partners and stakeholders – including the Government – know what to expect from the body. It also seeks to ensure the flexibility to respond to future decisions 12 months, and provide space for the Commission's new leadership to return to the strategy and complete the picture. It outlines the Commission's approach to understanding the issues for the economy, society and the countries of the UK, and set out how it can best contribute to challenging discrimination, upholding equality, and promoting human rights.
