

# audit berufundfamilie

The audit berufundfamilie® supports companies in their efforts to establish a sustainable balance between business objectives and interests of the staff. The audit was developed by the non-profit Hertie Foundation in 1995 and is a strategic management instrument for improving reconciliation of family and work and for promoting a family-conscious personnel policy. Since 2004, the work of berufundfamilie gGmbH, which conducts the audit, has been funded by the ESF. The audit is a component of the programme "Success Factor Family (Erfolgsfaktor Familie)".
