## How can we apply gender budgeting in the EU Funds? Practical tools and Member State examples

This section includes practical tools on how to integrate a gender perspective into the EU Funds, using detailed descriptions, checklists and examples from different Member States. Using this support structure throughout the programming and implementing process will ensure the coherent integration of a gender equality perspective. The tools are structured in line with the requirements of the Commission's proposal for a regulation on the content and implementation of EU Funds' operational programmes (OPs), addressing the proposal's articles.
