

# Gender Budgeting

## Introducing gender budgeting

**Watch Professor Diana Elson explain the concept of gender budgeting<sup>[1]</sup>**

**Have a look at UN Women's video on what is gender responsive budgeting<sup>[2]</sup>**

As these videos show, both women's and men's needs and demands need to be included in budgeting processes. This promotes accountability and transparency in public finance planning and management; increases gender responsive participation in budget processes; and advances gender equality and women's rights.
