

Gender Budgeting

Steps for operationalising gender equality in Partnership Agreements and Operational Programmes

This section contains two checklists:

- one on developing Partnership Agreements (PAs);
- one on developing Operational Programmes (OPs).

Each of these checklists contains the steps defined by the CPR to develop these overarching EU Funds instruments, except for the EAFRD^[1]. For each step, you will find a check box with questions and practical examples on how to identify, define and justify aspects connected to gender equality.

Footnotes

[1] EAFRD priorities are defined by the CAP, and it has not been included below. However, some questions could still be applicable to the EAFRD.
