

Activity of Ministère de l'égalité des chances Grand duché de Luxembourg

Aims and objectives

The ministry aims to achieve legal and actual equality between women and men at a national level. A National Action Plan for the Equality of women and men has therefore been produced, implementing gender mainstreaming and engaging all actors at an institutional level, social partner and NGOs. The ministry is working in different fields, such as: anti-violence initiatives (sexual and psychological harassment), equal pay, men and women's equality in municipalities, media campaigns against gender stereotypes.

Activities

In its communication strategy, and especially the internet, the ministry is promoting men by providing information about the situation of men in different fields. Special campaigns are planned for International Men's Day, as also planned for International Women's Day. Studies in the field of violence have been started recently to discover men's specific needs for help and assistance in cases of violence (both as the victim and the perpetrator of violence).

Campaigns

- 1 | symbol campaign promoting rights and duties as being for both men and women:
