The European Institute for Gender Equality (EIGE) envisages awarding a low-value contract with a professional service provider in order to carry out a study to review data and information and propose indicators on the formal home-based long-term care in the EU.

The focus of the tender is availability, affordability and equality of the formal long-term care (LTC) which is provided to older persons and people with disabilities at their home.

This ex-ante publicity is the first stage of the negotiated procurement procedure through which EIGE may award the above-mentioned contract.

All parties interested in providing the services described above should express their interest in 400 words maximum, by e-mail, to procurement@eige.europa.eu with the subject reference: EIGE/2019/OPER/16, before 24/07/2019, 11:00 Vilnius time.
