

# Gender equality and gender mainstreaming in the COVID-19 recovery

The European Institute for Gender Equality, the regulatory agency of the European Union, is planning to award the contract resulting from the above procurement procedure.

The overall objective of the study is to assess the EU recovery response to the COVID-19 pandemic from a gender perspective.

The specific objectives are:

Specific objective 1: to provide a general gender assessment of the RRF regulation and to identify opportunities and challenges for gender equality and gender mainstreaming within the established RRF framework (a legal case);

Specific objective 2: to analyse how the RRF gender equality objectives have been addressed in RRFs of 27 EU Member States (a policy case);

Specific objective 3: to assess the effect of selected COVID-19 related national policy measures (e.g. taxes and benefits) on gender gaps in income and earnings in 27 EU Member States (an economic case).

The procurement documents consist of the contract notice, this invitation letter, the draft framework contract and tender specifications with their respective annexes. All documents are available at the following [TED eTendering website](#) within 7 days of the publication of this notice.

Note: EIGE is using the eTendering platform for managing this call for tender, which consists of the publication of procurement documents and the management of questions and answers concerning the specifications and the procedure.

Please follow the relevant links to gain access to all procurement documents. The documents will be visible and downloadable, but in order to use some options on the eTendering website, you will need to register and log in. It is the tenderer's responsibility to check for updates and modifications to the tendering documentation during the tendering period on eTendering platform.
