

Gender Budgeting: Step-by-step toolkit

Gender budgeting is a strategy and a process with the long-term aim of achieving gender equality goals.

This step-by-step toolkit aims to assist managing authorities in the European Union to apply gender budgeting tools in the processes of the EU Funds under shared management.

This toolkit is structured in such a way that each target group is guided to when and where it could apply gender budgeting tools in the EU Funds process. By clicking on the relevant step of the process, you will access a variety of tools and promising practices from different Member States on how the tools can be used.
