

Gender Equality in Power and Decision-Making: Report

Review of the Implementation of the Beijing Platform for Action in the EU Member States

This publication is part of EIGE's broader mandate of monitoring EU progress towards gender equality within EU policy framework, specifically in relation to the strategic objectives of the Beijing Platform for Action (acknowledged by the European Council in 1995).

The report looks at how Member States (MS) fare in terms of gender equality in power and decision-making positions within bodies of public, economic and social power between 2003 and 2014. In addition, the report presents new data on decision-making in sport organisations.
