

Gender mainstreaming platform – leaflet

What does gender mainstreaming have to do with...Sport? Agriculture? Energy? Transport?

Gender gaps and inequalities between women and men exist across all areas of society and impact on our daily lives – in classrooms, on the sports field and on public transport.

This leaflet provides a basic introduction to what gender mainstreaming is and how it works. It also contains information on the different resources you can find on EIGE's online platform to help include a gender perspective into all stages of the policy cycle, including policy area guides, good practices, methods and tools and country specific information.
