## Covid-19 and gender equality

This webpage aims to raise awareness about some of the different consequences of the Covid-19 crisis for women and men in Europe. The information draws on our research findings and gender statistics. It puts forward ideas for policymakers to ensure that the gender perspective is not forgotten when it comes to making important decisions during and after the pandemic.

Keep an eye on our website for more updates throughout the year and check our projects page for upcoming studies related to Covid-19.

**Covid-19 derails gender equality gains**

EIGE's latest findings show that job losses, reduced working hours, work-life balance pressures, spikes in domestic violence, and overwhelmed helpline counsellors are just some of the effects of the coronavirus crisis.
