

Our work

EIGE collects, analyses, processes and disseminates data and information on gender equality issues, whilst at the same time making them comparable, reliable and relevant for the users.

As an autonomous body, EIGE operates within the framework of European Union policies and initiatives. The European Parliament and the Council of the European Union defined the grounds for the Institute's objectives and tasks in its Founding Regulation and assigned it the central role of addressing the challenges of and promoting equality between women and men across the European Union.

To support better-informed policy-making EIGE contributes to the promotion of gender equality in Europe through delivering high-level expertise to the European Commission, the European Parliament, the Member States and Enlargement countries.
