

Policy support on gender mainstreaming

Overview

Description

EIGE is supporting the European Commission (DG REFORM) and EU Member States in mitigating the economic and social consequences of the COVID-19 crisis by promoting gender mainstreaming through public reforms and budgets in the context of the national resilience and recovery plans. EIGE is offering assistance to mainstream gender by sharing effective examples and providing tailored resources for competence development in the areas of public policy reforms and budgeting processes.

The results will be available on [EIGE's gender mainstreaming platform](#) in 2023.
