Additional information: It is not time limited

Frequency of updating

Ongoing

Validation

✘ No information available

Compilation

✘ No information available

Quality assurance process

Brief description: Monthly meetings, on-going training, easy to use, can be changed without complications, close relationship with practitioners

Accuracy

Good. It is accurate. It is proved to be useful for the purpose for which it was established - to record incidents on the level of centres of social work. It was established at 2009 (first version already in 2005) and the quality of data improved during the years.

Reliability

✘ No information available

Timeliness

No information. It is available at all times.

Comparability

✘ Geographical

✓ Over time

✘ None

Current developments

There is no plans to improve data base, because there is an on-going process of monitoring and evaluating it. It can be changed at any time if there is a need.
