**Additional information:**
Each municipality provides data for the central database. Therefore it is responsibility of the municipality to provide accurate and correct data. The central manager, namely, the Ministry of Social Security and Labour manages and control proper recording of data.

**Compilation**

Each municipality in their own local base record data (collects them, records, saves, stores, classifies and sorts according to type of services, and corrects if needed). Number and types of assigned social services particularly for children, number of persons and families who received those services and spent money for services are available in this database. This information is provided by municipalities to central base which is accumulated in statistical reports by LtD Nevda.

**Quality assurance process**

**Brief description:** The database provides guidelines how use the existing database to compose statistical reports about type of service, geographical location, number of persons and families and children. But these statistics does not specifically address VAW or DVAW. They are about social support.

**Accuracy**
