- Dependents

Incident

Other content:
Criminal statistics on sexual violence

Criminal statistical data included
- Yes

Additional information: Prevalence of convictions for sexual violence, along other types of convictions (only data for convictions).

Characteristics

Reference period
- 1 year

Frequency of updating
- No information available

Validation
- Yes

Additional information: The Service for Criminal Justice Policy evaluates its own work and works together with the Institute for Equality of Women and Men to evaluate their work.

Compilation
Data drawn from sentencing bulletins, from the central sentencing register. The statistics are reported nationally and per district.

**Quality assurance process**

- Yes

**Brief description:** Service for Criminal Justice Policy made an exhaustive list of nomenclature for categorizing data.

**Accuracy**

Problems. In 2012, approximately 300,000 sentencing bulletins were not yet registered in the central sentencing register. Therefore, the data underestimate the true rate of convictions from 2006 onwards.

**Reliability**

Good. Codes are being provided by the Service for Criminal Justice policy to register data. The data are reliable.

**Timeliness**

Limitations. Data are not all registered in the central sentencing register yet. Data from 2006 onwards suffer from underestimation.

**Comparability**

- ✔ Geographical
- ✔ Over time
- ✗ None
