 - ✗ Evaluation
-

Data available on

Victim

- ✗ This statistical product does not collect information on Victim

Perpetrator

- ✘ This statistical product does not collect information on Perpetrator
-

Incident

Incident

Other content: On the base of Penal Code facts. The data about the cases at different phases of the prosecution are delt separately: namely at the investigation phase and the phases of the actual charge. The data of the cases in this second phase is collected by the VIR (Vádemelési Információs Rendszer, Information System of Charges).

Criminal statistics on sexual violence

Criminal statistical data included

- Yes

Additional information: All violent cases according to definitions in the Penal Code

Characteristics

Reference period

1 year

Frequency of updating

Ongoing

Validation

- Yes

Additional information: The statistical product is produced on the base of the following IRM regulation: 59/2007. (XII. 23.) that regulates Unified System of Criminal Statistics of the Investigative Authorities and of Public Prosecution rendelet az egységes nyomozó hatósági és ügyészégi bűnügyi statisztikáról

Compilation

Data compiled on the base of reports of investigation and charges, court cases.

Quality assurance process

- Yes

Brief description: The data is collected on individual sheets on an electric surface. Once a particular data sheet is completed a validating program is running to filter controversies in data an errors.

Accuracy

Good. The values are exact ,however there might be small shifts or problems in categorizing certain incidents. The original data source can not be checked again.

Reliability

Good. Yes the data is reliable. The percentage of potentially occurring errors is significantly limited.

Timeliness

No information. The statistics of ENYÜBS can serve very well the purpose of yearly comparisons. They show the trends very well, and these are especially significant in the case of frequently occurring crimes.

Comparability

- ✓ Geographical
- ✓ Over time
- ✗ None

* The data base is going to be adapted to the renewed Penal Code.

Current developments

- ✗ No information available
-

External link

- Yes

Links: This data base is a part of the so called ROBOTZSARU database. It is one modul of that system.
