
Tracking System Police (HKS)

Types of GBV

- ✓ Intimate Partner Violence
- ✓ Rape
- ✓ Sexual Assault (excl. rape)
- ✗ Sexual Harassment
- ✓ Stalking

* Intimate Partner Violence is being flagged, but not prosecuted as such as Intimate Partner Violence is not a criminal offense

Purpose of data collection

- Monitoring
- Contribute to other organisation database

Other purpose:

Police memory.

Data available on

Victim

Background information

- ✗ No information collected on Background information

Relationship with perpetrator

- No

Repeatedly suffering from GBV

- No

Perpetrator

Background information

- Age
- Sex
- Nationality
- ID
- Name
- Ethnicity
- Marital status
- Dependants

Other: The HKS contains data related to pressing charges and personal data (like offender addiction problems). Restrictions: only records data when offender older than 12 years old and if charges are pressed. (As of 1996 it does include data of minors in case they are referred to bureau HALT).

Relationship with victim

- No information available

Re-offending

- Yes

Witness

Background information

- ✘ No information collected on Background information
-

Relationship with victim/perpetrator

- No

Incident description by witness

- No

Children witnessing IPV incident

- No information available
-

Incident

Code system used

- ✘ No information available
-

Description of incident

- Date/time
- Harm/injuries
- Location
- Type of violence

Other: Data on the incident, including what the offender is charged with, the time and place of the incident and the modus operandi.

Protection order

- No

Civil justice data

- No information available
-

Incident respond resources

- ✗ No information collected on Incident respond resources
-

Prosecution process

Stages of prosecution process

- Withdrawals of complaints
 - Withdrawals of prosecution support
 - N. of cases reported for each incident
 - N. of cases initiated for each type of incident
 - N. of cases referred to court
 - Types of offense(s)
-

Defendant pleas/verdicts

- ✗ No information collected on Defendant pleas/verdicts

Average time case through criminal justice system

- No
-

Outcomes

Perpetrator

N. of cases resulting in arrest

- No
-

Charged with more than one offense

- Yes
-

List of offenses

- Yes

Victim

Death as result of incident

- Yes
-
-

Characteristics

Storage System

- In paper form
- Electronically (single files)
- Electronically (database)

Other: Recognition Service System (HKS).

Frequency of updating

- Ongoing
-

Quality assurance process

- No information available
-

Comparability

- ✓ Geographical
- ✗ Over time
- ✗ None

* Limitation: Problems arise when the alleged offender commits the incident in another police region than the one it resides in. source: CBS Criminaliteit en Rechthandhaving 2011, p. 338.

Timeliness

Immediately

Additional information: Updated directly. If no statement (proces-verbaal) is written up about the alleged offender within 6 months after registration in the HSK, the incident is deleted from the system.

Current developments

The data is being inserted by the different police forces. To extract data from the HKS, the KLPD's IT department has developed the DEX-module, which has been expanded and improved since. It is now possible to extract all the data in one HKS file, so offender that are registered in multiple regions can be identified. Source: CBS Criminaliteit en rechtshandhaving 2011, pp. 338-339.

Relation with third parties

Reported to third parties

- Yes

Name of organisation:

National Statistics Office

Used by third parties:

Yes (partly)

Reporter

- ✓ Victim
- ✗ Witness
- ✗ Offender
