

LOKK registration of cases in their counselling service for honor related conflicts

Statistic gathered by the counsellors on background of the person counselled, the nature of conflicts, the contents of the counselling and follow up.

Aims and objectives

To have a picture of the development and tendencies in honor related conflicts and to document the services of LOKK in the field of counselling on these issues.

Results and impact

LOKK lists the data collection as a good practice within data collection.
