

# Initial Medical Certificate

Contain all the steps to be followed by the doctor in terms of signaling the fact, content of the certificat and delivery of it, for example, keeping an original.

---

## Aims and objectives

Recommendation from the High Authority for Health (HAS) to guide doctors in the writing of an initial medical certificat for victims of violence. Contribute to an harmonized procedure in describing marks of violence.

---

## Creator/owner/responsible institution

Haute Autorité de Santé (HAS) - High Authority for health

---
