European Institute for Gender Equality

Handbook for Teachers on sexual violence against young women, including materials for the lessons

in the frame of a long-term prevention project against sexual violence a Handbook on sexual violence for teachers in primary schools have been developed. The handbook "Vorbeugen Informieren! Schutzen!" (Prevention! Information! Protection!) includes information on the issue, on prevention and intervention possibilities and Materials to be used in schools. It also includes a selection of materials which can be used during the lesson.

It addresses: definitions of sexual violence against children, statistical data, legal aspects, beside others. It also aims to give teachers practical information on how to handle with children being victims of violence, how to speak to their parents.

The book also includes materials to be used during the lesson.

Aims and objectives

The brochure gives an overview on the main facts on sexual violence in order to support teachers bringing in this issue in their lessons. The aim is to raise awareness of children and young pupils on this issue, in order to sensitize and prevent violence in relationships and the families.
