

Proposal of a Resolution in order to support females and young females, victims of genital mutilation and to reimburse medical care via INAMI

This Proposal for Resolution to government asks for a better cooperation between federal authorities and the Flemish and French speaking communities concerning the better detection and follow-up of cases of FGM in schools, organize local support in the risk regions Antwerp, Flemish Brabant and Liege, register reconstructive operations, do research on different methods for reconstructive operations, inform and train medical staff, and provide financial support for victims of FGM.
