

Government notification n° DGS/SD2C/2007/98 about the training of students in Faculties of medicine within the framework of the Action Plan against FGMs

This notification jointly issued by the Ministries of Health and Education, points out the need to improve the training of future practitioners (physicians, obstetricians, gynaecologists...) on FGMs. The document briefly sketches the existing policy framework, indicates some prevalence data and the different types of FGM. It also indicates in which modules of the curriculum in medicine a specific course on FGM should be included.

Policy Framework
