

White Ribbon Campaign

Fabrice Leggeri

European Union, Executive Director of Frontex, European Border and Coast Guard Agency

“

Violence against women is the scourge of our global community. It is not limited to any one country or region, but affects the women close to us and in all walks of life: our mothers and our daughters, top managers and the migrants reaching Europe's shores each day. We must not lose any more time, but join forces to eradicate this abuse for good.

”
