

# White Ribbon Campaign

## Marian Mesároš

Slovakia, Lawyer at the Slovak National Centre for Human Rights

“

*Our society lives in 21st century, but still do not fully accepts the equality of men and women. We again and again witness gender based violence instead of equal dialogue. Therefore I support this and all kind of anti-violence activities. Every man should care, because every man has mother, sister, wife, or daughter. We lost too much time - its urgent to end violence now and forever.*

”
